Pro-Mussolini Times

IN our Sept 22 issue we offered a copy of Vol III printed on special white paper, bound and indexed (which will be sold for \$2) to the first person giving name of paper and date of publication of the following item:

BENEFITS OF FASCISM VIEWED ON BIRTHDAY

In thirteen years regime regarded as having accomplished many laudable things in Italy

The results are amazing—an eye-opener. They indicate that IN FACT's readers at least are very wise to the American press. Ninety-eight percent of the replies said: "New York Times." That is correct.

The answers indicate that everyone knows that the Times boosted Mussolini from 1922 until recently, and employed an Italian to send it pro-Fascist news. For example, J S writes:

"You ask for the name of the great newspaper that expatiated on the 'Benefits of Fascism.' Without looking up the files, the undersigned will bet that the name is The NYTimes. You also ask for the date. The date is almost any day of almost any week of almost any month of any year. The Times arrogated to itself the duty of selling Italian Fascism to this country, and by innuendo convince the American people that Fascism would be good medicine here."

All answers as to the date were guesses. They are therefore the greater indictment of the leading newspaper of America because they show that people recognize it for what it is, a pro-Fascist newspaper.

By Fascist IN FACT always uses Mussolini's own definition; Fascism is a synonym for reaction.

Reward No. 2

NO one guessed the date of the Times pro-Fascist headline. It was Sunday Oct 28 1934. Many guessed Oct 1935. Actually the Times was writing in praise of 12 years of Fascism, beginning of 13th year.

Here is another chance to win the bound volume. What weekly magazine with some 300,000 circulation printed the following:

"MUSSOLINI WISEST OF THE STATESMEN

"'Mussolini is always right.' We laughed at that slogan. But he has yet to be wrong. He made peace with the Pope. He saved the civilization of Western Europe in Spain. He has given his people dignity. . . . Italy has no intention of joining in this war [sic] unless it be to bring it rapidly and decisively to a conclusion. Meanwhile she sets her face resolutely

Mr Dies in Service of Big Business p. 1

US Army Freezes Civilian Wages p. 3

O'Dwyer Dwindles as Labor Backs LaGuardia p. 4

WHY was the latest (Oct 20) smear issued by Chairman Dies of the un-American Committee placed on the front page of most big daily newspapers in America, and approved in many editorials, when in fact President Roosevelt, President Cardenas of Mexico, the labor unions, Wendell Willkie, and the leading citizens of the nation had already shown up Dies as a "liar," falsifier, "faker," "enemy of the democratic process," "zany," "purveyor of perjured testimony," and 150 lawyers had shown Dies "is not concerned with the truth." (Complete documentation, IN FACT Sept 22, pp 2-4.)

The answer is that the poll-tax representative from Texas, where the majority is denied the right to vote, was smart enough to take the side of the newspapers in attacking the cooperatives, consumers' organizations, organized labor, liberal organizations, every institution which questions corrupt advertising. Dies speaks for the Nat'l Ass'n of Manufacturers, the Hearst press, and other native Fascist elements.

The same newspapers which called Dies a clown and grandstand player and which denounced the Dies investigation as a fraud and un-American have in the course of years turned to praise his services in attempting to smash the CIO and other labor unions, and especially to smash those organizations which have exposed crooked business and crooked advertising.

The Charges Against Mr Dies

The main charge made against Chairman Dies of the un-American Activities Committee is that he has spent almost a million dollars, producing nothing of value, but refused to investigate un-American activities of the most powerful Fascist elements in America, namely:

The Associated Farmers of California and elsewhere;

The Christian Front, Christian Mobilizers and other hoodlum organizations;

The National Association of Manufacturers, which the Monopoly Investigation named as the most powerful force in America working against the "general welfare."

The Ku Klux Klan, which also flourishes in Dies' state.

The various industrialists engaged in fighting labor, notably Henry Ford, Girdler, Weir, the employers of thousands of spies, stoolpigeons, etc. (as exposed by the La Follette Committee).

Anti-democratic organizations of Big Business, such as League for Constitutional Government, Neutral Thousands, Sentinels, Reveres, and other misusers of patriotic names; also the NYState Economic Council, numerous chambers of commerce, etc.

Labor has denounced Dies and the Dies Committee as a manufacturers' agency. Said official CIO organ, CIO News:

"The Dies Committee digs into its stock of lies and libels to smear patriotic Americans every time they are engaged in negotiations to advance the American standard of living and industrial democracy.

"Newspaper publishers take up the hue and cry, glossing over the profit-grabbing iniquities that provoke industrial unrest, and seeking to whip up the anti-labor hysteria which many claim to deplore.

All of this organized agitation is proclaimed to represent an 'aroused public opinion' which has turned against labor. And behind this smokescreen the hard-faced Tories of Big Business reaction chuckle over the chance it gives them to cover up their profiteering and to promote anti-labor legislation."

Time and again the American Civil Liberties Union, a nonpartisan organization, has demanded that the Dies Committee be ended because it itself is un-American. The ACLU holds that the Dies Committee's "irresponsible activities and unfair methods are destructive of civil liberties. Its charges, often unfounded or unproved, and always exaggerated, arouse hysteria, intolerance, and repression." The ACLU accuses the Dies Committee of "attempts to injure liberals and liberal

organizations." It adds that "Native and foreign Fascist and reactionary groups have, on the other hand, been gingerly handled, pampered, or altogether ignored," and lists among these Fascists Father Charles Coughlin and Merwin K Hart, "chief American apologist for the Franco regime in Spain, and a leader of reaction." The net effect of Dies' activities, concludes the Union, "has been to promote repression of liberal and progressive causes."

Dies Refuses to Investigate Fifth Column

The Dies Committee has been asked hundreds of times to investigate the real enemies of American democracy, the real Fifth Column, the native Fascists and Hitlerites. It has almost always refused to do so. It has made sensational copy of a few minor individuals but always refused to touch persons and institutions connected with wealth and power.

U S Att'y Gen'l (now Supreme Court Justice) Jackson named the leading enemies of democracy, underminers of morale, and economic exploiters (the phrases are his) in an address to Boston lawyers. Jackson named the following (whom the Dies Committee was immediately asked to investigate):

H W Prentis Jr, president, National Association of Manufacturers.

Charles A Lindbergh Jr

The Saturday Evening Post

League for Constitutional Government

Merwin K Hart, N Y State Economic Council

Major Gen'l Van Horn Moseley, U S Army, ret'd

Of this lot of pro-Fascists, anti-labor propagandists, spokesmen for Mussolini, Hitler and Franco, and as Mr Justice Jackson put it, "enemies of democracy," only Moseley was ever questioned.

When Att'y Gen'l Jackson named the leading enemies of democracy and most newspapers suppressed all or at least part of the list, IN FACT wrote to the Law Society of Mass. which sent the full text of the speech. Mr Jackson spoke on "Democracy Under Fire." Here is his own list of the enemies of democracy:

"Last February, Gen'l Van Horn Moseley . . . said . . . he was 'doing all I can to get the word 'democracy,' out of literature.' 'A democracy,' he asserted, 'pulls everything and everyone down to the level of an average that makes it Communism.'"

"We might expect as much from one with Fascist tendencies, but on another occasion . . . H W Prentis Jr, . . . President of the National Association of Manufacturers . . . assailed what he called 'the pitfalls of democracy.' Among the democratic institutions which Mr Prentis attacked were the direct election of U S Senators, the primary, the initiative, the referendum and the recall, all of which he said were bringing us closer to the pitfalls of democracy. 'Hope for the future of our republic,' said Mr Prentis, 'does not lie in more and more democracy.'"

"A year later, we find the same theme taken by the Saturday Evening Post . . . (which) editorially asserted that 'this was not a democracy. The founders dreaded democracy almost as much as they feared despotism.' [The SEP listed four items, as follows]

"First, universal suffrage, whereas in the beginning the right to vote was qualified by a property ownership requirement.

"Second, the election of the President has become closer to a direct vote of the people. . . .

"Third, the elections of Senators by direct popular vote. . . .

"Fourth, the graduated income tax."

"Thus the Saturday Evening Post deplores these developments because they are steps in the direction of democracy.

"This same attitude is to be found in a pamphlet issued by the self-styled League for Constitutional Government. This pamphlet proclaims that 'the defenders of the American system of government must doubt the sincerity of those individuals who continue to refer to our government as a Democracy.' That of course includes the candidates of both political parties. And they cite two 'alien ideas' brought about during the Wilson Administration 'which are responsible for many of our ills.' 'We refer to the income tax amendment and the creation of the gov't dominated Federal Reserve System, both of these alien ideas were brought to this country from other lands.'"

"Another instance occurred at a meeting of the Union League Club . . . the speaker was Merwin K Hart, president of the so-called NY State Economic Council which is closely allied with the manufacturers' associations. Merwin Hart is wellknown for pro-Fascist leanings. In 1936 it was his proposal that every person who accepted any form of gov't help should be denied the right to vote. And now . . . Mr Hart says that 'it is time to brush aside this word 'democracy' with its connotations.' That was the theme of his speech, that democracy is a danger to this country. . . . Mr Hart's contempt for democracy is made the more significant by the fact that he stated publicly that he had submitted his address in advance to the president of the Union League Club and had obtained his approval of it. [Mr. Justice Jackson then gave the history of the use of the word Democracy in America, quoting Madison, Jackson, Jefferson, John Adams and Alexander Hamilton, and concludes that] 'in the minds of the men who founded our two great political parties both the word 'Democratic' and the word 'Republican' meant government by consent of the governed. . . . It is too late for a controversy over . . . two words that in common speech are synonyms and represent ideas which overlap.

"It is the upsurge of this real underlying democracy . . . that stirs these new

against all heresies: Bolshevik, Liberal and Nazi. . . ."

The date of the publication of these lies must accompany name of magazine. Prize goes to first correct answer received in fortnight.

Carter Quits Anti-Semites

The alliance announced between Boake Carter, anti-labor radio commentator, and the Anglo-Saxon Federation, anti-Semitic organization, did not take place. In his newspaper column October 24 Carter said that he had been advised 10 days before the announced date of his featured lecture at the Anglo-Saxon Federation convention, that the organization was "subtly anti-Semitic." To test this, Carter explains, he wrote a lecture combatting anti-Semitic interpretations of the Bible, and submitted it to Howard B Rand of the Federation. Rand objected, hemmed, hawed, said Carter's views "won't sit well with our crowd," and the lecture was dropped.

Carter had been invited to speak because he had previously spoken at a meeting sponsored by the Christian Mobilizers and Christian Front, two organizations which are not only anti-Semitic but which have engaged in hoodlum activities similar to those of the Nazis in 1933.

(IN FACT, Oct 27, gave a complete exposé of Carter's anti-democratic career. It is glad, however, to print the fact he did not speak for the Anglo-Saxon Federation.)

Incidentally the Carter episode gives additional evidence to the charge this ASFederation is anti-Semitic. The importance lies in the fact one of ASF's main backers is William J Cameron, and Cameron is Henry Ford's former editor of his anti-Semitic weekly and today Ford's chief speaker (radio hour).

War and Movie Town

FROM Hollywood, Federated Press correspondent J R Chaplin writes that even Publisher Harry Chandler of the reactionary Los Angeles Times is deep in the fight to help Russia save the U S and the world from Hitlerism. It is a strange, but an impressive, sight.

With the Nye-Clark anti-Hollywood witch-hunt quiescent, Assemblyman Jack Tenney's committee on subversive activities has come to light again. But instead of magnifying canards about reds, the committee now seems bent on revealing pro-Nazi activities in California. The committee has revealed the connections between local demagogue Ellis O Jones, onetime quasi-liberal and onetime exponent of Huey Long's theories, with America First's anti-Semitic leadership.

America First has taken to picketing advertisers who use the local newspapers, because these papers, they say, are "warmongering." America First also publicizes free mass meetings of Bob Noble, notorious ex-Huey Long henchman.

The labor and liberal movement in Hollywood is growing stronger. The current eastern trial of George Browne and Willie Bioff on extortion charges promises to rid the industry of its worst anti-labor smear. The unions can grow stronger only through the autonomy they would gain by expulsion of the Browne-Bioff clique. The Int'l Alliance of Theatrical Stage Employees (AFL), thus freed, could become one of the strongest unions in the country.

The League of American Writers has

started its new school term in Hollywood, inaugurating a course in labor journalism (for the first time out there).

Business Is Business

IN FACT has constantly emphasized that reactionary tendencies like racial discrimination—so far as their sponsors are concerned—have economic motives in the background. Here is an example:

In Washington, D C, there is a store called Kaplowitz. It is Jewish-owned, and no doubt the ownership is against anti-Jewish discrimination, which is rather prevalent in Washington. IN FACT is willing to assume that the ownership is also against any other racial discrimination, since one kind stimulates another. But business is business, and the wealthy treasurer of the organization, A J Kaplowitz, sends this sweet little note to his employees:

"During busy periods and on sale days we wish to avoid waiting on COLORED TRADE. Of course, we have quite a few very valuable customers among colored people—teachers, professors in colleges and some of them whose husbands hold high type positions with honor and distinction. If you know these people it is good business to give them service and when you do it must be given unobtrusively and in such a manner that it will not look like a colored convention.

"In other words, you should take them to the fitting room, make this sale in the fitting room, complete the entire transaction, then take her to the elevator so there will be no loitering or lingering on the floor. All others—you may tell, that we are sold out, we do not have their size or in some way, without offending them, get them out as quickly as possible. . . .

"All this must be done with discretion and good judgment so you will not start any arguments or create a disturbance. We leave the entire matter up to your discretion and good selling judgment. The main point is to get them into the fitting room as quickly as possible.

"With colored trade we have, we want only the high type of trade and the others, we would rather not be bothered with. AJK."

Native Fascism

IN a resolution demanding an all-out war effort West Side Joint Council of Local 174, CIO autoworkers, Detroit, endorsed "President Roosevelt's program of all-out defense effort to destroy Hitlerism at home and abroad."

Labor unions have been the first big groups in America to realize that Fascism is an international force sponsored by the enemies of labor to destroy unions as a reward to Big Business.

Many leading Americans including

oppositions to democracy. . . . The reversion to the old arguments against democracy is important today. They reflect the fundamental resolve of these groups not to accept democracy in its really vital modern sense.

"The mischievous effect of this gathering of forces against freedom and democracy is apparent from the speech night before last of Mr Lindbergh. It was significant that his only reference to democracy was a sneering reference. . . . His speech, so perfectly calculated to undermine confidence in American leadership, was delivered just on the eve of America's muster of its manpower for selective service. No speech, in its timing and its substance, could more perfectly have served the purpose of those who would weaken the morale of democracy and undermine the spirit of our defense effort.

"We are witnessing the most ominous gathering of forces against freedom and democracy that has been seen in my time. Even if those enemies of democracy gain no foothold as a result of our elections, the drawing together of powerful groups making common cause under such common slogans is still an ominous development."

(The Associated Press and United Press, the main agencies serving about 90% of the American press, suppressed the names of Prentis, Saturday Evening Post, Hart, League for Constitutional Gov't. Whole story was suppressed in Chicago Tribune, Phila Ledger, Washington Evening Star, and most other papers searched by IN FACT. Boston Post changed name of SEPOST to "a weekly magazine." NYTimes buried 7 paragraphs. NYHerald Tribune published whole story. Sun suppressed it, but published an item headed "Barton [big advertising man] Assails Acts of Jackson." NYWorld-Telegram buried 3 paragraphs, suppressing most names. PM ran complete story).

Ickes Names "Quislings"; Dies Silent

Quisling is the Norwegian traitor who sold out his country to Hitler. The word Quisling has become a synonym for people who betray their country, for subversive Fascist or Hitlerite elements, for the very persons whom the Dies Committee (if it were honest) would investigate.

But when Sec'y of the Interior Ickes issues his list of "Quislings" in America and the list was sent to Dies, Dies refused to take any action.

Mr Ickes: "Our native Fascists are at work cultivating the soil of hatred. Our appeasers are at work sowing confusion. Our appeasers are powerful aids to the Fascists; both are doing precisely what Hitler delights in having them do." The following is the list of Ickes' appeasers-Fascists-Quislings as named by him:

Henry Ford

Father Coughlin

Merwin K Hart

Lawrence Dennis (one of the few admitted American Fascists; author of books favoring Fascism in America; supposed "brain trust" of Lindbergh).

Major Al Williams (of the New York World-Telegram, the most pro-Fascist of the Roy Howard string of 18 anti-labor newspapers).

"There is a widely disseminated and ably conducted movement in this country," said Ickes, "that draws together such men as Merwin K Hart, Father Coughlin, Col Lindbergh, Lawrence Dennis and Maj Al Williams. . . . These men are supported by others who play upon the prejudices of the anti-Semite, the anti-Negro and the anti-sharecropper. These are the Quislings who, in pretended patriotism, would cravenly spike our guns and ground our planes in order that Hitlerism might more easily overcome us. . . ."

Not one of these five accused has been investigated by Dies.

US ARMY FREEZES CIVILIAN WAGES

Efforts of United States employers, led by the Nat'l Ass'n of Manufacturers, to keep wages down by law are beginning to head up to a major struggle, with the entire labor movement up in arms. But in one part of the Nation, our possession of Puerto Rico, maximum wages for civilians have already been fixed—by military fiat of hardshell regular Army officers. A construction worker sends IN FACT a bulletin posted at Borinquen Field (US Air Base No. 24) on the coast of Puerto Rico:

BASE HEADQUARTERS

BORINQUEN FIELD, PUERTO RICO

MEMORANDUM TO: Military and Civilian Personnel, Borinquen Field, P. R.

SUBJECT: Servants

The following maximum scale of wages is prescribed for household servants on this post:

Cooks \$18.00 per month

Laundress \$12.00 per month or \$1.00 per day if hired by the day.

Men to take care of car 4.00 per month

House maid 12.00 per month

Combination house maid and laundress 15.00 per month

These rates of wages are maximum rates intended for trained help and will not be exceeded.

All servants employed at Borinquen Field will be registered with the Provost Marshal.

Servants working for personnel on the post will not be employed by

another person on the post without first securing a clearance from former employer.

Should any employer desire to have a servant "posted" i. e., forbidden to work at Borinquen Field, he will submit a full written report of attendant circumstances to the Commanding Officer.

By command of Brigadier General BRADLEY:

DAVID E. BARNETT,
Lieut. Colonel, 65th Inf., Adjutant

This is not only an arbitrary "freezing" of wages, but combines two other features—a form of forced labor and an automatic blacklist.

"Although Borinquen Field is one of the bases designed to defend the democracies of the Western hemisphere," our correspondent points out, "the natives employed at the base by the constructing contractor are treated in a way which is anything but democratic. Puerto Ricans are American citizens but notice the differentiation in this dual scale of wages:

"American" Workers	Native Workers
Foremen \$100 per week	Foremen 50 or 75 cents an hour
Skilled workers \$1.50 per hour	Skilled workers 40 cents per hour
Helpers75 per hour	Helpers 25 cents per hour

"All 'Americans' may live at the base in Gov't quarters for \$5 a month or in a family apartment for \$15 a month and \$1 a day carfare to and from the base.

"'Americans' may secure a card entitling them to buy at the Army Post Exchange. Among the items that can be purchased with this card are cigarettes at 65 cents a carton and gasoline at 15 cents a gallon. Puerto Ricans have to pay the prevailing price of \$1.50 per carton and 22 cents a gallon.

"This condition certainly is not helping to promote friendly Latin American relations. If we want the people of Puerto Rico to aid us wholeheartedly in our defense program, we cannot afford to discriminate against them as we are doing."

O'DWYER DWINDLES AS LABOR BACKS LAGUARDIA

With party lines crossed in many instances, the NY election situation, a week before the vote, shapes up more and more as a significant test of public opinion on main world issues, progress vs reaction, anti-Hitlerism vs appeasement. District Attorney O'Dwyer remains the candidate of the Christian Front, the Coughlinites, and the Tammany graft machine. Mayor LaGuardia is the choice of labor, CIO and AFL, and bears the endorsement of President Roosevelt.

O'Dwyer has not repudiated the support of the pro-Fascist appeasers, nor have they ceased to campaign for him. In the reactionary stronghold of Queens, the Republican candidate, labor-hating George U Harvey, studiously avoids saying a word for the head of his party's ticket, Mayor LaGuardia. Harvey has been for years tied with the most reactionary elements. He leaped to the defense of the Christian Fronters arrested for conspiracy to overthrow the government, boasted before the Senate Foreign Relations Committee of his connection with them. Basic economic motives transcending other considerations, Harvey is at the same time for the Coughlinite Christian Front and the anti-Catholic Protestant War Veterans. In this campaign Republican Harvey is trying to knife Republican LaGuardia to aid the reactionary candidacy of Tammanyite O'Dwyer.

O'Dwyer started a slashing campaign, raising the "red" issue and attacking the American Labor Party. He was going good until Eugene Connolly, ALP candidate for council, revealed that O'Dwyer had sent emissaries to enlist ALP support (IN FACT Oct 6) and had been turned down.

O'Dwyer has been dwindling since labor made up its mind fully on the campaign. Labor's position in the election goes beyond immediate economic questions. The Trade Union Committee to Elect Labor's Candidates represents over 300 AFL and CIO unions, is headed by Austin Hogan (CIO) with Harry Reich (AFL) as treasurer. It is concentrating on 10 candidates for city council—Eugene P. Connolly, Rev A Clayton Powell Jr, Daniel Allen, Rebecca Stein Yuttal, William Grogan, Jacques Sario, Salvatore Ninfo, Charles Rubinstein, Gertrude Weil Klein and Wellington Roe. Campaign rallying cry:

"Pledged to defend our country's national interests by making New York a 100% anti-Hitler town; by making America 100% ally of Great Britain, USSR and China; by making New York a 100% union town of clean and honest government."

writers, radio commentators, columnists, editors, publishers who today realize that Hitler, Mussolini, Franco, the Mikado and other Fascists are the enemies of America and Democracy, say nothing about Fascism (or Hitlerism) at home. The American Fascisti, like the European, are also financed by the special interests, chief of which are reactionary employers. Unions everywhere are realizing this.

KKK in Detroit

NOT only the southern KuKluxKlan but also the special Detroit brand known as Black Legion seem to be trying to enter the auto capital again. President R J Thomas, CIO auto workers president, has issued this warning: "There is no room within the ranks of the UAM-CIO for the KKK or its activities. Efforts of the Klan to inject itself into our local unions should be resisted to the utmost. . . . The UAW-CIO is an American organization and makes no distinction because of race, color, creed, and it will not tolerate Colescott and his associated bigots. . . ."

Naturally the KKK is trying to get into the Ford unions.

50 Times Strike Loss

DR THOMAS PARRAN, Surgeon General of the United States, says: "Losses in production from sickness and accidents are 50 times greater than time lost in strikes and lockouts."

Not one of the thousands of newspapers, congressmen, columnists, who demand laws against strikes also demand laws forcing employers to put in accident prevention devices and maintain better health conditions, or pay higher wages making for better health.

If employers were forced to help prevent accidents and sickness it would involve money. Employers are also advertisers. The press which takes advertising also takes the viewpoint of the employers. But the publishers say advertising doesn't affect policy.

Is Lindbergh Lying?

THROUGHOUT America people are taking sides on Lindbergh and other spokesmen for America First. Heated arguments, much emotion. What are the documented facts? Hitler in Mein Kampf wrote something about the value of big lies. Did Lindbergh carry a Hitler lie to Britain in 1938? Is Lindbergh lying in his writings about blood, race and color? Did Lindbergh tell the truth or quote Nazi lies in his Des Moines speech? The answer, documented facts, will be published in next week's issue.
